"MAKE A GREAT FIRST IMPRESSION"

The Heart of the Home

With a stunning kitchen remodel from Amiano & Son, people can fall in love again with the most important room in the house.

Amiano & Son Design-Build
Southampton and Long Beach Island
(609) 268-5923 | AmianoAndSon.com

When it comes to your home, nothing enhances its beauty and functionality quite like a stunning kitchen remodel. The kitchen is where most homeowners spend a majority of their time, making it a vital space that deserves to be both beautiful and practical.

At Amiano & Son, they believe that your kitchen should reflect your style and accommodate your needs. Whether you're looking to update your cabinetry, install a modern backsplash or completely remodel your space, their team of experts is here to help you every step of the way.

"The kitchen is the heart of the home," says Lauren Holston, Amiano & Son's marketing manager. "It really is the place where everyone gathers and it's where everything comes to life: the food, the conversations, the get-togethers. There are so many people who choose to have their kitchen remodeled because it's the room that matters most."

Since 1968, South Jersey homeowners—and now, Jersey Shore residents too—have been counting on the company for a variety of home remodeling needs, and over the years its team has only evolved into offering more and more services. Today, Amiano & Son provides everything from full home renovations to outdoor living spaces and bathroom remodels, but kitchen makeovers remain one of its most in-demand requests.

Rather than putting the house up for sale and trying to find a new home in today's turbulent real estate market, Amiano & Son can transform your space with a lot less hassle.

"We can help anyone make their kitchen dreams a reality," Holston says. "We can make the heartbeat of the home what they want it to be."

It starts with a process they call the "Amiano advantage." From the initial phone call and in-home consultation through product selections and construction all the way down to the quality control check, clients are kept in the loop with constant updates. With experienced designers and project managers focused on every aspect of the job, Amiano & Son has direct control over the quality and design, as well.

"We are truly a one-stop shop," Holston says. "I have never seen a remodeling company cover everything from Point A to Point B the way Amiano & Son does. We're with you on every step of the remodeling journey, and everything is handled in house. We will not start construction until we know everything is going to fit and function properly, and if it won't, then we regroup and figure it out before we start any work on the space.

"When I first started working here they would say, 'We treat our customers' houses like our own.' The more sites I've visited, I've really seen how true that is. You don't have to go somewhere else for your designer, your plumbing or your electric. We do everything, and something like a kitchen remodel is going to need all of that."

The team strives to give the homeowner exactly what they're looking for while also sharing the expertise and knowledge they've garnered from completing thousands of kitchen renovations. That might mean suggesting a vertical spice rack to save space, recommending the removal of a wall to create more room or designing a new pantry that is easier to access, just to name a few examples.

"Our designers and project managers working on the project listen to the customer, hear what they want, and then offer them more functional ways to do it," Holston says. "That might even include things they didn't realize were possible, like certain gadgets or drawers that just make life easier!"

The Amiano team especially specializes at rising to the challenge of designing and constructing a completely new layout from the existing one.

"That's our bread and butter," Holston says. "Most companies can pull out and replace—just pull out the old fridge and put in a new one, or pull out the old island and put in a new one. We specialize in taking your space and reconfiguring the whole thing. A lot of people come to us because they know we can create something beautiful and unique from scratch."

Some of the latest trends Amiano is helping to deliver to clients include double islands for multiple purposes; installing custom cabinetry panels on panel-applicable appliances for a clean, uniform look; large hoods over the oven with a finish to complement the other colors and textures in the space; and chef-grade appliances from Wolf or Monogram.

Also, species like knotty alder and walnut are becoming increasingly popular to add more of a unique and organic element to a kitchen. And while engineered quartz remains in high demand, natural materials are back in style. Beautiful quartzite stone or exotic granites are being sought after, as people are looking for materials they connect to.

The trends may change over time, but one thing that remains the same is Amiano & Son's dedication to completing projects with honesty and integrity. It's an approach that started with founder Lou Amiano Sr. and was passed down to current owners Lou Amiano Jr. and his wife Wendy. Their daughter Sophia Amiano and nephew Joseph Clymer are the youngest generation in the business and have carried on that tradition of excellence as well.

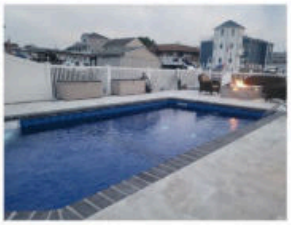

"Sophia and Joe really know what they're doing, but it goes way beyond that," Holston says. "This company has been in their lives for their entire lives. So there's a passion and drive behind a family business because it is their legacy. They have a little more fire to make sure the company thrives and is always delivering optimal results to clients." Christmas in November

Think November is too early to be thinking about holiday lights? Think again. For one local business, the holiday season began back in August, and it's in full force until the end of January. *by* **Katie Francis**

Jeff Adamiak, the owner of GEM Home Maintenance, began We Hang Holiday Lights with his crew in the fall of 2017 to fill the primary business's offseason.

"It [holiday lights] sort of fit with our traditional business, window cleaning, power washing, that sort of slows down. … And then I just realized how much happier you make people hanging Christmas lights as opposed to cleaning their windows or cleaning the roof or something like that," Adamiak says. "And I just fell in love with doing it. It became fun. It's Christmas lights, who doesn't like Christmas lights?"

Thus, We Hang Holiday Lights was born, and business is booming with the team providing holiday cheer for more customers than ever before.

In its first year, We Hang Holiday Lights served roughly 30 clients. Last year, the team decorated for 560 clients; this year, Adamiak expects to hang lights at more than 750 houses, with hundreds of new and returning customers whose demand for the specialized service is already filling up his team's schedule.

How It Works

"We try to get as many of our customers installed in October. If you're a returning customer, we want to get your lights installed in October because it's safer. There's no frost on the roof in the morning and the days are longer, so it allows us to get more work done."

Along with the team's immaculate decorating and top-notch products, they provide maintenance service all throughout the holiday season.

"Part of the contract is, we maintain everything. Bulb goes out? Give me a call and within 24 to 48 hours, I have somebody out there doing the repairs," Adamiak says.

Maintenance is guaranteed until Jan. 6, which is when We Hang Holiday Lights begins the process of taking displays down.

"We come to disassemble the lights, we label them all and then store them for the customer at our facility.

Not Just a Light Company

When Adamiak began We Hang Holiday Lights in 2017, he quickly realized the positive impact he was making on his customers. Since then, his team has added a philanthropic facet to the seasonal business, providing lights for families going through tough times and bringing some light to their holiday season.

"We always try to look for as many of those as we can every year," Adamiak says. "I'd like to do more of those. Those are the most enjoyable jobs ever."

Only the Best

We Hang Holiday Lights only uses the best lights in the business, or, as Adamiak admirably calls them, "the Bentleys of the holiday light industry." The company uses C9 lights and customizes the length of the strips to perfectly shape the architecture of each house.

"I can cut these lights to fit any length, any design. … And then, of course we can do bushes and trees and shrubs," Adamiak says.

All of the lights used by We Hang Holiday Lights are warm LEDs, not to be mistaken for the bright blue that people usually associate with LED lighting. These lights are incredibly illuminating and replicate the look of incandescent lights while using only 10% of the energy.

Adamiak believes that a job worth doing is worth doing right, and his customers certainly get what they pay for. He even compares his team's quality of work to that of Philadelphia's Boathouse Row and the iconic displays at Downtown Disney, but better! H&H

A Matter of Trust

When it comes to finding the right contractor for the job, **Emmons Remodeling** offers clients both expertise and peace of mind.

When you need work done on your home—expected or not—you want to know that you can trust the contractor you've hired to get the job done well. After all, you're not an expert on what's involved in services like roofing, siding or windows, and you don't want to get taken advantage of as a result. Because of that, it's important to choose a company that you can feel confident is reputable.

But how exactly do you know a company can be trusted?

One important factor in choosing the best contractor is longevity. Only a company that performs great work is going to be able to stick around for the long haul. That's exactly the case with Emmons Remodeling, a company that has been offering expert care for South Jersey and the Jersey Shore area since 1996. They are a wellknown name in the region—and for good reason. Their success was built upon a reputation of honesty, integrity and good work.

In fact, the company is an Owens Corning Platinum Preferred Contractor. That's not a designation that any old company can have. Platinum Preferred Contractors are in the top tier of a premier-network of roofing professionals. In order to achieve this title, they must have passed a workmanship inspection, been professionally screened for financial stability and customer service, and continue to adhere to stringent guidelines set forth by Owens Corning. Fewer than 1% of roofing contractors in the United States are Owens Corning Platinum Preferred.

"It's a title that backs up our already strong reputation," says Stephanee Kelly, co-owner of the company along with her husband Matthew. "Only the most reputable companies are able to earn that designation."

Besides being able to feel confident that you've hired a contractor you can trust, this designation benefits homeowners in a more tangible way as well. That's because Platinum Preferred Contractors are able to offer 50-year warranties on their work—much longer than other companies can offer. According to Owens Corning's website, "because we stand behind these warranties, we need to make sure that we are backing up the best roofers in the business."

Emmons Remodeling has been providing interior remodeling service throughout New Jersey and Pennsylvania for more than 30 years. The company has built its solid reputation on craftsmanship and exceptional customer service.

As the family-owned company grows, it has expanded the team that is available to help design and build your projects. Several talented remodeling industry professionals have recently joined Emmons to serve its over 6,000 existing customers and help expand the growing number of satisfied customers throughout South Jersey.

And the expertise is not limited kitchens and bathrooms. Emmons provides full-service remodeling and construction services for additions, interior renovations, porches, decks, windows, doors and basement finishing. The design team acts as your trusted advisor to help you make the right decisions on products, materials, colors and selections. They make it easy using a proprietary curated design concept, which is an industry first. It's an easy, affordable way to quickly get a custom designed project without the heavy cost of a design-build process.

You can always trust Emmons to provide exceptional value and design with quality project outcomes. Now with Krista (lead designer/project planning manager), Rebecca (project design consultant), Frank (construction project manager) and Pete (director of operations) teaming up with seasoned vice president of construction Chris Kelly, key project manager Eric Gilham and 20 trade professionals, you can rest assured that your project is designed and built right. A five-year warranty and a lifetime service guarantee back up the claim of quality and craftsmanship, while providing you with peace of mind that you made the right decision.

The experts at Emmons are always ready to help you with kitchen, bathroom, additions and deck solutions. They make remodeling your home easy and affordable with exceptional financing programs and realistic pricing. Trust Emmons with your next project.

After all, the Emmons' mission statement is: "Our customer's experience builds our business and defines our reputation, which is one of trust, reliability, integrity and value for every customer we serve."

Choosing Wisely

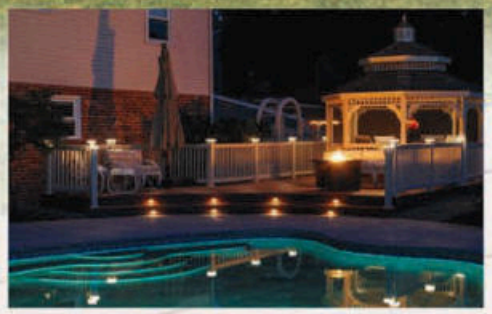

At the end of the day, your choice in roofing, siding and window contractors can be the difference between good, quality work—and a big headache. Stephanee says that the last thing Emmons wants to see is people in their local community get taken advantage of by unscrupulous roofing, siding and window contractors.

"You should be able to feel confident that you've chosen a contractor that you can trust— not one that is going to leave you with problems to fix after they've gone," she says. "At Emmons, you are not only investing in a new roof, new siding or new windows—you're investing in peace of mind." H&H

Del Val Pools and Spas

NOWADAYS, BUILDING A POOL IS MORE THAN AN INVESTMENT IN YOUR PROPERTY VALUE: IT'S AN EXTENSION OF YOUR HOME. Pools are for more than swimming and often act as a gathering place for family and friends—including an ever-increasing amount of cooking and entertainment opportunities.

While it may seem strange, this time of year is actually the best time to begin planning your new pool project, according to Bryan Hull, co-owner of Del Val Pools and Spas. *House & Home* spoke with Hull about best practices in planning a pool and about Del Val Pools' generations of experience.

Brian Hull, Partner

AS THE WEATHER GROWS COLDER, DO THINGS SLOW DOWN IN THE POOL BUSINESS?
Our three Del Val Pools and Spas locations will experience a slowdown in terms of chemical and pool accessory sales now that most have closed their pools until next spring. That being said, this time is a very busy planning season for the new pools we will build before the summer of 2025. So, while retail slows down, pool construction and planning amps up.

WHEN IS THE BEST TIME TO PLAN FOR A NEW POOL?
If you want to be swimming in your personal backyard oasis by next summer, you need to get on our calendar and start planning right away. We build custom gunite pools and aim to bring your vision to reality—which means plans change as your dreams change. We know our customers will read articles, find inspiration on social media and maybe even come up with their own ideas over winter break. Getting on the schedule now locks in the calendar and gives one time to finesse and polish original concepts. In addition, planning a budget now is always a better idea than scrambling in the future. We do all our own work—we do not subcontract any aspect—so we are able to establish a firm price now.

IF YOU WERE BUILDING A POOL IN YOUR BACKYARD IN 2025, WHAT WOULD YOU WANT?
Nowadays, the pool is an extension of the home—becoming more of a function of the home and the house's architecture. This stylistic congruency simply means an extension of the home outdoors. I recently finished my pool right before the summer and we built ours with ample seating, lighting, spa and outdoor cooking facilities. My pool is right off the back of my house—not hidden in the back corner of the property. It's where we relax, enjoy our families and make memories.

WHAT IS IT LIKE FOR YOU TO HAVE THE THIRD GENERATION OF YOUR FAMILY AT DEL VAL POOLS?
I remember when we were the up-and-coming generation. We constantly questioned "why" and "how" all the time—it drove the first generation nuts—but we know that inquiring is the birth of innovation. My brother, myself and our wives are the older ones now and share our decades of experiences with the up-and-coming third generation, and encourage them to ask their own questions and offer ideas. Everything from the business model and industry to where and how we build pools has changed throughout my generation, but we continue to grow and evolve our knowledge and services. Building at the Shore has proven to be an immensely rewarding challenge. The second and third generations at Del Val own that, and we have found a superb niche in South Jersey building "Sandy-proof" pools—a much-needed concept following the aftermath of Hurricane Sandy.

WHAT IS THE BEST ADVICE YOU CAN GIVE TO PEOPLE THINKING ABOUT BUILDING A POOL IN 2025?
Do your research and discover what your dream pool looks like. Create a file and fill it with inspo pictures, concept maps of your yard and a list of your top priorities to create an overall plan. Pools in 2025 aren't the single-purpose rectangle pools of my childhood; they've evolved a tremendous amount. Technology is the way of the future and now phones have the ability to control your pool's cleaners, lighting, waterfalls and so much more. In addition to dreaming big, learn more about Del Val Pools—like how we control costs by buying inventory two-to-three years out, do all of our own work and set standards to ensure your pool is built to last. Quality, innovative work, and going above and beyond in construction is what we're known for—it's who we are and who we will continue to be as the fourth generation of Del Val Pools is here. **H&H**

The Primary Elements

As the largest room in a home, **the possibilities for primary bedroom additions and design are endless.**

by Carly Murray

WHILE A PRIMARY BEDROOM IS PREDOMINANTLY A PLACE TO LIE DOWN AT NIGHT, PEAK RELAXATION BEGINS WITH A SPACE THAT EXUDES WARMTH. If an individual or a couple are not completely in love with the space where they begin and end their days; there are a range of options to transform a room, as well as the residents' affinity toward it.

"Contact a general contractor, and then most of them will help [clients] to get started with plans and go from there, or see an architect first and have the plans made … and then take it to the general contractor," advises Sam King, owner of Beechdale Builders.

The main element that comes to mind regarding bedrooms is, of course, the bed. Acting as a focal point, the bed's position, headboard design and style of bedding are easily-alterable. Consider adding a canopy for a bed fit for a queen, or depending on the headboard's design, opt to weave string lights through it. String lights come in many different shapes, sizes and colors, and some can be controlled with a remote or phone app.

Oleh Lopatynsky and Pavlo Danylchenko, co-owners of Signature Woodcraft, describe how every project they work on is unique. A satisfied client once described her new space as akin to a high-end hotel room. This is accomplished in ways one wouldn't normally consider—such as the effects of line work and angles to create that illusion.

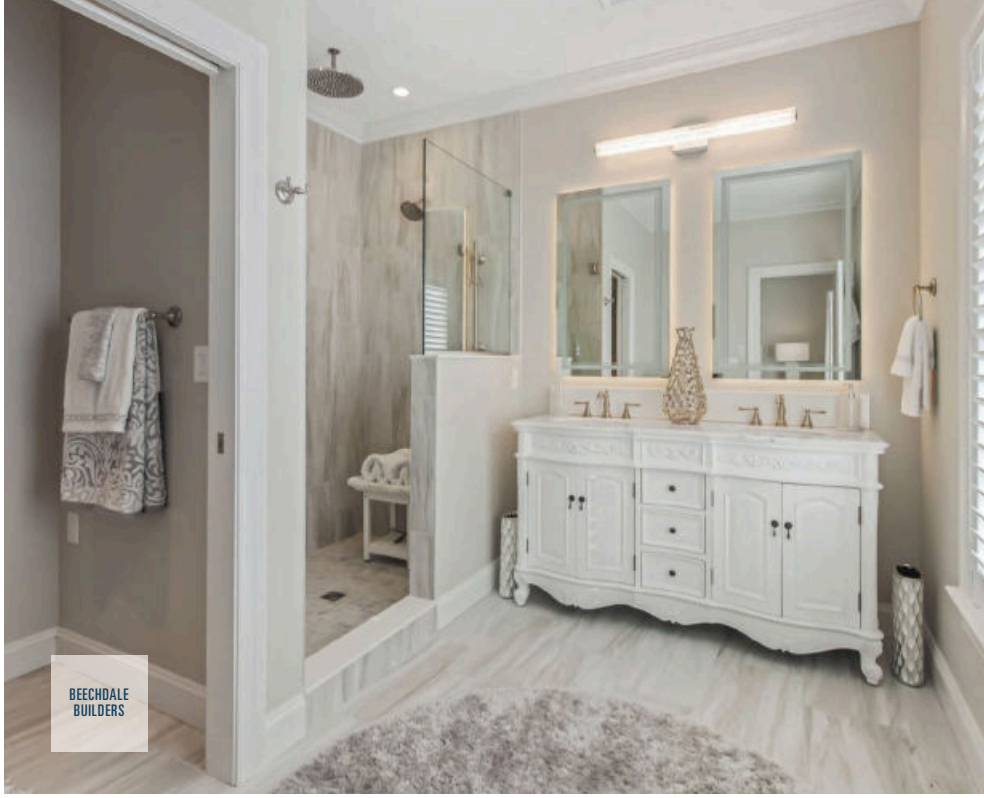

"Just creating a focal point behind the headboard, different accent walls, maybe putting some wood panels in—people like to do it modern, like many different angles—45 degrees, 90 degrees—and creating a different design so the headboard of the bed stands out from the rest of the room," they say.

Another idea to amplify the space, considering the background of a fixture, is lighting behind a television. By adhering color-changing strip lights to the back of a TV, depth is added, and colors and intensity can be changed depending on a person's mood. Try falling asleep in blue or purple dimmed lighting or putting on a bright orange or yellow during the day while reading a book. The effect makes a room feel like an artistic film as everything in it is bathed in the light of different colors.

However, some people are partial to a classic look, and find that to be the most intimate. Classic and modern elements can also be combined to have a traditional aesthetic with modern efficiency.

"When you think about the bedroom, you think about the warmth. So people do like to add built-in, electric fireplaces. It's not such a pricey project like a real fireplace with the chimney and everything—

The Primary Elements

it is very reasonably priced compared to the chimney, and it's easy to do with a frame," advise Lopatynsky and Danylchenko.

The partners further recommend bookshelves on each side of the fireplace. This can make a primary bedroom look as cozy as possible, and add an element of personal flair with the books that are chosen. While some may be partial to having their books alphabetically organized, organizing them by color is an easy way to customize a space. This will also work with now-old-school DVDs, CDs and vinyl albums, which have re-emerged in popularity. Experiment with creating a symphony of color, texture, design and functionality.

"I've been finding clients are starting to pull away from the minimalist look and starting to embrace a more eclectic mix, combining various styles such as earth tones, patterns and textures to create their space. I've been seeing an uptick with clients that are more interested in woven wood shades, not only for their beauty, but the texture element that shades bring in," explains Julianne Hidirsah, president of The Main Street Workroom.

Shelves of tchotchkes add a kitschy look, or one could opt for more precious trinkets depending on what they are interested in: porcelain dolls, sports memorabilia, antiques or anything else that they want to keep as close as possible while on display. Art is another way to elevate a space. Keep in mind that a bedroom is supposed to be personal, so there are no predetermined "dos and don'ts."

"Don't be afraid to be bold. Take the risk. Choose the vibrant paint color, go for the bold pattern on your drapery, thrift the vintage rug, buy the funky lamp. You won't regret it," affirms Hidirsah.

The other major part of a primary bedroom may be the bathroom within it. Decorative features can again be customized with linens, or perhaps with a bath mat, shower curtains, or replacing cabinet and drawer knobs. The latest, most innovative options for functionality take a bit more planning—but they are well worth the effort.

Freeform mirrors of different shapes and framing materials can hang over a vanity. While there are plenty of options of different combinations—for instance, an asymmetrical mirror with a gold metal frame—there are also artisans that can make custom pieces. Do some research, and make inspiration boards. Whereas a bed is the centerpiece of a bedroom, a vanity can be the centerpiece of a bathroom. The style choices can make the bathroom look like a palace, a spa or even a dressing room fit for the star of a Broadway show with the proper technology. This extends to lighting, mini televisions to watch while bathing and luxury spa features.

Constructing an Energy Efficient Future

New Jersey's Clean Energy Program offers financial incentives, programs, and services that help save money, energy, and the environment.

- New Construction & Gut Rehab
- Combined Heat & Power and Fuel Cells
- Large Energy Users
- FREE Local Government Energy Audit

Learn more at NJCleanEnergy.com

The Primary Elements

"Luxury options would be steam showers, not only regular freestanding tubs, but freestanding tubs that consist of air jets for cellular therapy. Some of them even have an aromatherapy [feature] to them. Frameless shower doors where you have clear glass with not a lot of trim on it, heated towel bars and pebble shower floors create that spa look in their own home," says Robin Murphy, a certified kitchen designer in Ferris Home Improvements' kitchen and bath division.

Everything is rapidly changing in the world around us, home renovation aspects included. While innovation can be overwhelming, it can be repurposed and utilized in creating an optimal sanctuary away from the hustle-and-bustle outside the home.

"I think people want a retreat. They want to create an oasis, a place to kind of get away—because everyone's always so available now, with our cell phones and computers," says Murphy. "It's nice to just go to a quieter space—not only your bedroom, but the primary bathroom." **H&H**

We Hang Holiday Lights

BELIEVE IT OR NOT, THE HOLIDAY SEASON IS RIGHT AROUND THE CORNER, AND THE TEAM AT WE HANG HOLIDAY LIGHTS (WHHL) HAS BEEN TIRELESSLY WORKING TO ENSURE THAT THEIR CLIENTS ARE PREPARED FOR THE QUICKLY APPROACHING FESTIVITIES SINCE LATE SUMMER.

House & Home recently spoke with owner Jeff Adamiak, who prides himself in providing clients with nothing but the best, as top-quality service has been the We Hang Holiday Lights standard since 2017.

Before

After

Jeff Adamiak, Owner

WHAT IS THE PROCESS OF BECOMING A CUSTOMER?

Simply give us a call or visit our website to answer some qualifying questions to make sure we are a good fit for what you're envisioning. Then we will determine if what you're looking for can be designed virtually or if it requires an on-site consultation with me. I will work with you on display options and budget and discuss the terms of our service. Our lighting is customizable LED SMD lighting and because we cut them to fit your home, we can't reuse them and only offer 3-5 year agreements.

HOW DOES THE AGREEMENT WORK?

We do a lease agreement with our clients. We amortize the cost of the material over the length of the agreement. The longer the term the less per year, and everything is included. The price remains the same throughout the agreement.

WHAT'S NEXT?

After we agree on a display and the length of the term, we begin building your lights in our warehouse. Our crew comes out and custom-cuts the lights to fit your home. We label and diagram each strand of lights to make sure the display is the same each year, and use special clips to ensure the lights are perfectly straight and secure without damaging your home. We take full responsibility to maintain your display throughout the season. Should anything go wrong, simply call us and we will fix it either that day or the next.

WHAT HAPPENS AT THE END OF THE SEASON?

We begin our takedowns the first week after the new year and, weather permitting, all the lights are down by the end of the month. We make sure everything is labeled properly, box them up and store them in our facility. Installs for returning customers begin in the middle of September, starting with our clients who celebrate Diwali. We get as many rooflines installed by the end of October before the frost to be as safe as possible for my crews. We will have them installed and ready to go. You simply plug them in whenever you're ready.

WHY SHOULD PEOPLE HIRE YOU RATHER THAN DECORATE THEMSELVES?

Our clients appreciate the concierge-type service. The materials we use cannot be bought by the general public and the way we design your display is much more involved than simply "hanging lights." The end results are spectacular.

WHAT MAKES YOU DIFFERENT FROM OTHER COMPANIES?

We take an artistic approach to decorating your home. We don't just "hang lights." A few years ago a customer came to me and showed me lights installed by another company. She was happy with the display but wanted better. We came up with some different ideas and agreed that some of her trees didn't quite scream "put lights on me." After the first season with us, she replaced those trees with Christmas lights in mind. This client now has one of, if not THE nicest displays in her town.

IT SEEMS LIKE YOU REALLY ENJOY WHAT YOU DO.

Yes, this business is amazing. Our clients may be the ones paying for the lights, but the whole community gets to enjoy them. A few years ago, a woman called our phone number from a sign we left at a client's house. "I just had to call you and say how beautiful the lights look, I don't know the neighbor, but we walk past her house every night and it brings us so much joy to see the lights," she said.

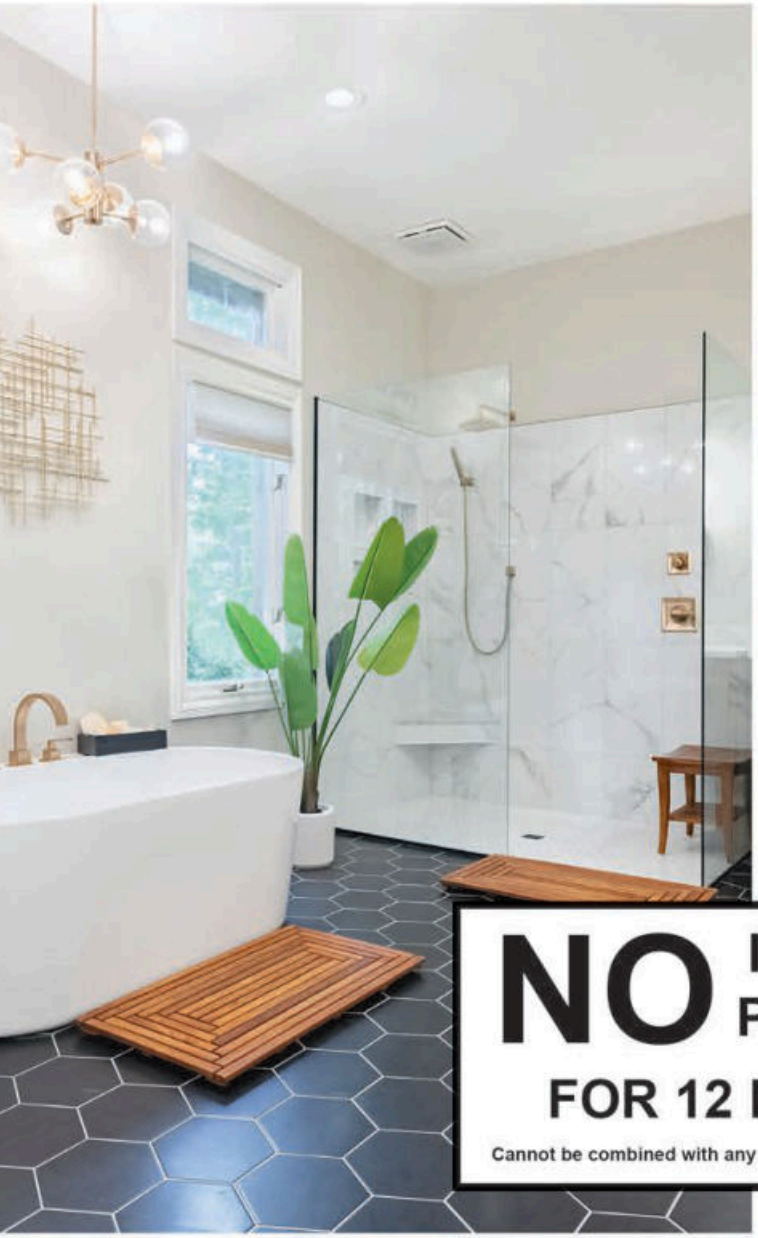

WHAT ARE YOUR FAVORITE DISPLAYS?

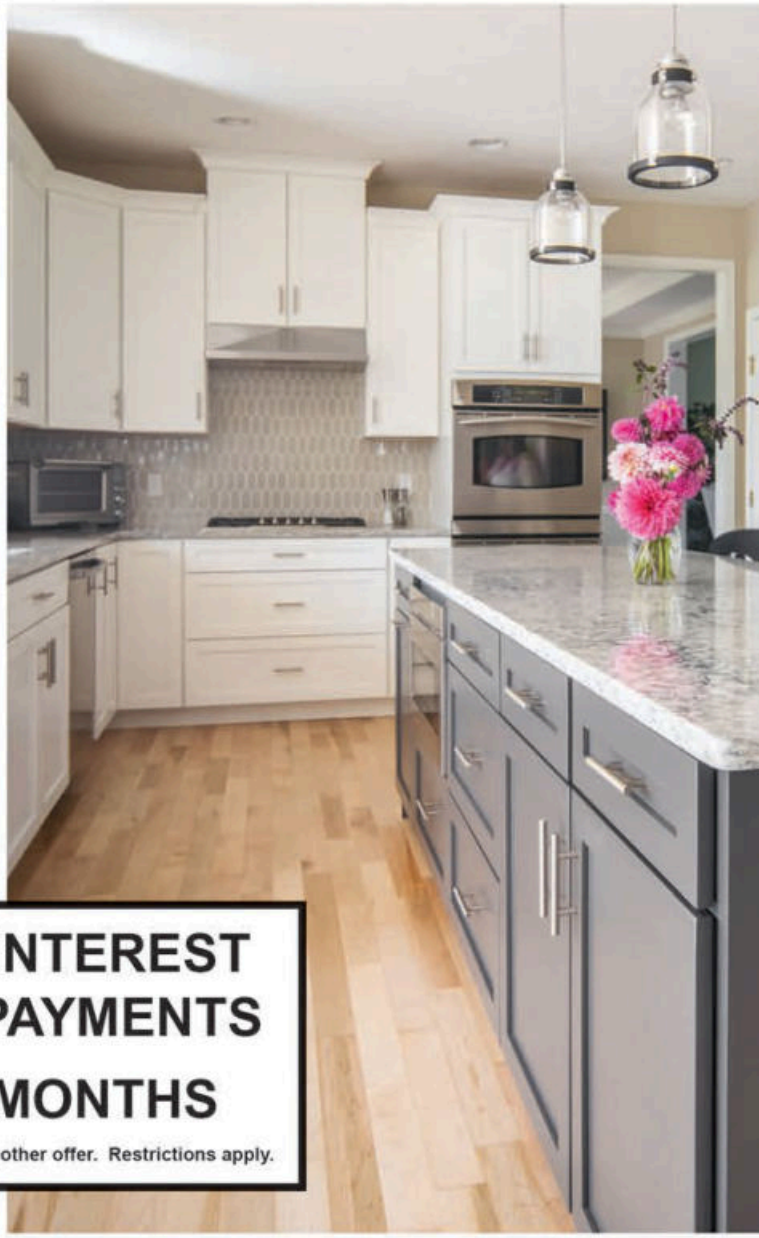

The displays I enjoy the most are the ones we don't charge for. Five years ago, a client asked me if she could pay to have lights installed for a family member whose husband and son were both deployed overseas. She paid for the lights and we supplied the labor for free. It was done as a surprise and they were thrilled. It felt great to be a part of that and since then, we are always looking for opportunities to light up someone's home who is going through tough times. Whether it's for a child who's sick or disabled or a family who has lost a parent with young children, we hope to do about 10-12 of these jobs per year free of charge. **H&H**

Swim-Mor Pools & Spas

Swim-Mor Pools & Spas
Mt. Ephraim | **(856) 456-3332**
SWIMMOR.COM

Swim-Mor Pools & Spas is a family-owned and -operated business started in 1967 that proudly carries on a tradition of quality in our products. We have an experienced staff that utilizes some of the latest technology to bring to you. Visit or contact one of our three convenient locations for a consultation about building your ideal pool.

SWIM-MOR POOLS & SPAS

new pools

Put some tropical escape back into your suburban sprawl. This perfect oasis is no mirage but the ideal transformation of your yard to the spot where everyone gathers to enjoy.

stylish

Stun your neighbors and attain a level of sophistication that you have always dreamed of. Your yard is now ready for everything from cocktail parties to barbecues and birthdays.

Give your old pool a new look with the latest features, functions and materials. Add the hydrotherapy spa that you always wanted or simply replace the worn plaster, tile and coping, a full range of options is available.

RENOVATIONS

STYLISH SPACES

Gehman Design Remodeling

Our clients envisioned transforming their screened-in porch into a truly unique kitchen experience. At the initial entryway, where the kitchen once resided, they sought to preserve that space, repurposing it into an exquisite butler's pantry that exudes sophistication and charm.

Harleysville, Pa.
(215) 513-0300
GehmanRemodeling.com

Henrietta Heisler Interiors, Inc.

The objective of this luxury kitchen renovation was to transform a 30-year-old, closed-off kitchen into a brighter, more contemporary space with ample storage and an updated work triangle. We worked closely with our clients to create a plan with a better flow for cooking along with a more sophisticated ambiance for entertaining. But the true jewel in this kitchen is the Tiffany Blue gas range with matching bell hood from Officine Gullo.

Lancaster, Pa.
(717) 295-0324
HenriettaHeislerInteriors.com

Inspiring kitchen and bath designs

THAT PROVIDE BOTH FUNCTION AND BEAUTY

Stonebridge Renovations

This master bathroom renovation included removing a wall and the complete demolition of walls and flooring, as well as opening up the shower. We used Nabi Harlequin glass tiles on the upper wall and Granada wallpaper to add further design elements. The custom wainscoting was another way to make a great statement with the space.

Malvern, Pa.
(484) 459-4920
Sb-Renovations.com

Master Design Cabinetry

This project transformed a neglected kitchen into a welcoming space for family gatherings. With Master Design Cabinetry and designer J.R. Glick, the homeowners revamped the kitchen with full custom cabinetry, adding a new nook and built-in elements throughout, creating a space beyond their expectations.

East Earl, Pa.

MasterDesignCabinetry.com

STYLISH SPACES

Kitchen Tune-Up

Upgrade your kitchen without the hassle of a full remodel! These homeowners upgraded their kitchen with cabinet refacing. We install new doors and drawer fronts, then cover the existing cabinet boxes with a veneer to match. You'll have a brand-new kitchen in no time.

Exton, Pa. | (484) 435-7430 | KitchenTuneUpMainLine.com

By Design Kitchen & Bath

At By Design Kitchen & Bath, our focus is on creating exquisite designs and always exceeding our clients' expectations. In this project the client wanted a hearth-style hood. We built that along with the cabinetry, which has slim shaker style doors and drawers in a color matched to a F&B color with custom panels on the dishwasher and refrigerator. The island, shelves and hood accent are in rift cut white oak. The 2" mitered countertop and the backsplash are a beautiful quartzite.

Short Hills and Milburn, N.J. | (201) 892-7649 | ByDesignKitchenAndBath.com

Let's Face It

This contemporary kitchen refacing project included white glossy cabinetry with white quartz countertops. What's more, a new wood island was fabricated in our shop with a black granite countertop and extra storage space underneath.

Lower Gwynedd, Pa. | (215) 343-2600 | LFIKitchens.com

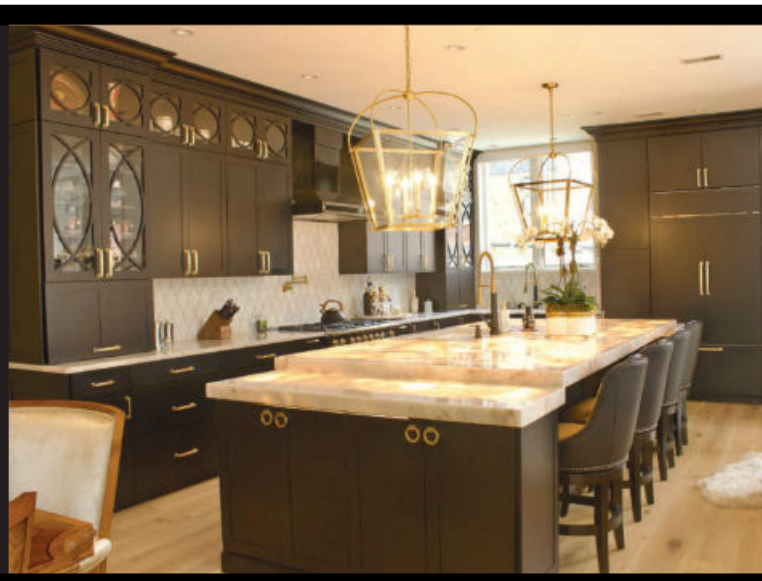

HomeTech Renovations

This kitchen remodel of a home in Jenkintown, Pennsylvania has lots of unique features. The White Icing modified shaker cabinetry by Medallion has become quite popular in the industry and with homeowners. Meanwhile, the earl grey island is highlighted with wainscot paneling and a PentalQuartz countertop with Borghini finish.

Lower Gwynedd, Pa. | (215) 646-7477 | HTRenovations.com

Exquisite Designs

As a family-owned business, Exquisite Designs specializes in supplying beautiful and high-quality bathroom and kitchen products. In this bathroom renovation, the customer selected Luxe Gold Brizo fixtures and a custom Furniture Guild wall mount vanity. The addition of the coordinating Amba towel warmers completes this luxurious space.

Wayne, Pa. | (484) 584-4120 | ExquisiteDesignsPhilly.com

Main Line Kitchen Design

This Center City Brighton custom kitchen designed by Chris Rossetti features professional appliances and a light-up quartzite island countertop. Double-arched mullion glass doors with interior cabinet lighting frame the imported La Cornue range with convenient lift-up appliance garages at the ends of the countertop.
